WHO WE ARE:

- **Comorin Technologies LLC** was founded in 2010 and has been providing an innovative Supply Chain Execution solution for SAP-based businesses for over **20+ years**.
- We provide productivity solutions through consultation that are designed to be efficient and user-friendly while integrating people, technology, and business processes.
- We are a skilled team of SAP software domain entrepreneurs who employ professional services to deploy, integrate and support various partner networks.
- We specialize in using cutting-edge devices to digitize SAP Supply Chains to define scope and timeline, particularly for any management procedures with guaranteed deliverables.
- We utilize a cost-effective offer for every turn-key project delivery, innovative products, and powerful support services with prompt response while focusing on in-house resolution with immense satisfaction.
- We deploy a technology toolkit for a vaccination supply chain to precisely address the healthcare process of local, regional, and national vaccination efforts.
